Bandages

Gloves & Surgical Masks

Masks

Disposable PPE

Swabs & Gauze

IV Bags and Tubing

Regulated Medical Waste is any item contaminated with blood, body fluid to a saturation level that is pourable, flakeable or drippable, or been in contact with an infectious patient or agent. This waste stream also includes sealed disposable sharps containers, visibly contaminated PPE and visibly bloody plastic tubing.

If **uncontaminated**, these items should be disposed of via general waste or recycling
